

7TH INTERNATIONAL SCIENTIFIC AND TECHNICAL CONFERENCE IN THE SERIES TITLED

INNOVATIVENESS IN WATER AND SEWAGE SYSTEMS

WATER – what about precipitation water?
SEWAGE – what about sediments?

26th–27th March 2020 / Warsaw

MAIN OBJECTIVE OF THIS EDITION OF THE CONFERENCE:

creating capacities for exchanging knowledge and experience of water companies and results of scientific research in the field of innovativeness of technical, organizational and legal solutions in waterworks and sewage systems with special consideration of the needs of water and sewage management.

ISSUES TO BE RAISED DURING THE CONFERENCE:

- Managing sewage sediments as well as water and sewage purification – assessment and directions for development in the light of climatic changes and protection of water resources;
- Disposal and management of precipitation water – strategies, technologies and legal regulations versus the protection of water resources;
- Water grids as critical infrastructure – management, use, quality, surveying, localization problems;
- Energetic efficiency of technological processes in sewage plants, water treatment plants as well as water distribution and sewage disposal;
- Safety and risk in water supply and sewage disposal in the light of climatic changes, including Water Safety Plan (WSP);
- Water and sewage plants vis-à-vis economic challenges in the closed circuit.

To take part in the Conference, please send your applications to the email address of the Conference secretary's office, that is: konferencja@mpwik.com.pl, or apply via www.mpwik.com.pl or by fax: 22 445 60 15.

The topic of your paper along with the summary (1–1.5 pages) should be sent to monika.sudol@pw.edu.pl until **31 January 2020**. The extended summaries of your papers will be published in the Conference materials, while full texts with positive opinions pronounced by the Scientific Committee will be made available in magazines such as: "Gaz, Woda i Technika Sanitarna" ["Gas, Water and Sanitary Engineering"] and "Instal". The organizers expect that there will be the capacity to publish the papers in other ranked scientific magazines. A poster presentation is expected as well.

The participation fee amounts to PLN 880 gross. The organizers will guarantee: your participation in the Conference, Conference materials, coffee breaks, lunches, evening get-together and an excursion.

Conference venue: MPWiK w m. st. Warszawie SA, Zakład Centralny, [Municipal Water and Sewage Plant in the Capital City of Warsaw, the Central Plant], address: ul. Koszykowa 81.

During the Conference, the authors and authoresses of the best papers and posters will be awarded.

Detailed information can be found at: www.mpwik.com.pl, www.inowa.is.pw.edu.pl and www.informacjainstal.com.pl
